

PARTNER PREVIEW

Referral and white-label workflow for SaaS privacy advisors.

NoticeKit gives consultants, fractional DPOs, startup attorneys, and compliance operators a narrow operating kit for client subprocessor change notices. It organizes facts, drafts, trackers, and evidence for review without claiming to provide legal advice.

Who this is for

The partner version is designed for advisors who already help small SaaS teams prepare privacy operations, vendor inventories, DPA reviews, procurement responses, or security readiness work.

Fractional DPOs

Use the Pro workflow to capture vendor facts, segment customers, and prepare attorney-ready evidence packets before a client sends notice.

Privacy consultants

Add a repeatable subprocessor notice workflow to privacy program setup, vendor inventory cleanup, or enterprise-sales readiness projects.

Startup attorneys

Receive cleaner client facts, dates, contract assumptions, and open questions before legal review. No fee-sharing is assumed.

What partners can show clients

The preview is based on the Pro kit manifest and focuses on operational deliverables, not legal conclusions.

Artifact	Client use	Partner value
Multi-change vendor register	Track proposed, active, replaced, and removed subprocessors.	Turns scattered vendor context into one reviewable operating record.
Customer notice matrix	Segment customers by notice method, deadline, owner, and status.	Helps advisors spot missing recipients and unmanaged objection windows.
DPA clause intake worksheet	Capture notice periods, special recipients, and escalation notes.	Separates business facts from legal interpretation before counsel review.
Attorney-review packet	Summarize the change, assumptions, evidence, and open review questions.	Reduces back-and-forth when legal review is needed.

Artifact	Client use	Partner value
Evidence folder workflow	Store notice copy, approval proof, page proof, and objection logs locally.	Creates a practical audit trail without requiring hosted NoticeKit storage.

REFERRAL TERMS

Early partner economics

- 25% referral commission on Starter and Pro sales for the first 12 months after a referred customer's first purchase.
- 15% referral commission on Concierge Audit sales.
- 20% referral commission for compliance operators outside the privacy-consultant track.
- Monthly manual payouts after the refund window, with a \$25 minimum threshold.

WHITE-LABEL USE

Reserved for active partners

- Replace NoticeKit cover pages with the consultant's brand inside client delivery.
- Add consultant-specific implementation notes.
- Share completed client-specific files with that client.
- Keep disclaimer language and avoid reselling raw templates as a standalone product.

Operational tooling only.

NoticeKit does not provide legal advice, interpret contracts, act as a DPO, or create an attorney-client relationship. Partners should preserve this positioning and involve qualified

counsel when legal judgment is required.
